

1 **ABSTRACT OF THE DISCLOSURE**

2

3 A bandana device for use by a vehicle rider
4 wearing a helmet, to protect against dust impingement
5 on the face, whereby when the bandana is applied to the
6 wearer's face and the corners are brought together at
7 the rear of the wearer's neck and below the lowermost
8 rear edge of the helmet, the components are then
9 positioned to be pressed together to retain the bandana
10 tensioned over the wearer's face, and to exclude
11 entrance of dust and dirt beneath the bandana.
